

VIDANT NORTH HOSPITAL Development Council

THANK YOU!

Throughout 2020, community members and local businesses provided meals, PPE and other supplies to help us through COVID-19.

As we all navigated COVID-19 in 2020, the support shown to Vidant North Hospital by community members and local businesses completely overwhelmed us. One morning in April, the Roanoke Rapids Police Department, the Roanoke Rapids Fire Department and the Halifax County Sheriffs Department arrived on our campus to honor all of our healthcare heroes. We express our sincere gratitude and appreciation to these groups and thank you for all you do to serve our communities!

We were also very appreciative of the innovative ways our community chose to give back to our hospital. Rodney Connell, the husband of one of our nurse managers, Shantea Connell, owns NC Glass. Once the pandemic hit, Rodney, along with his team, designed and created three intubation boxes, which he donated to our respiratory team. These boxes were placed over the patient's upper body, allowing the team to reach in through the holes and place the airway in the patient while having a barrier to protect team members from the patient's droplets during this procedure. Thank you, Rodney and NC Glass!
