

COVID-19 continued to be a challenge during 2021 for Vidant Edgecombe Hospital team members, patients and the community we serve. We focused our efforts on providing the best quality of care for our patients even though there were many obstacles and trials to confront.

In 2019, the Vidant Edgecombe Hospital Development Council raised funds to remodel a Palliative Care Suite for our patients and families. This remodeled suite met a significant need in our community; however, it became apparent quickly that additional space was needed. The Vidant Edgecombe Hospital Development Council began considering fundraising options to address the addition of another palliative care suite. Because of Covid, it was obvious we were not going to be able to have an in-person gala as we have had for so many years. Thanks to the creativity and innovation of our development council, a brand new fundraising strategy was implemented. Our Drive-Thru Gala-to-Go was hosted on September 23 at Ribeyes of Tarboro. Sponsors and those who purchased tickets received a delicious steak meal including dessert and wine delivered curbside by a member of our development council. Though it wasn't the traditional black tie gala our community was accustomed to, our new event was thankfully well received!

Our Gala-to-Go event also included a silent auction and t-shirt sales. All together, we were able to raise over \$50,000! This included a \$25,000 donation from The Vidant Edgecombe Hospital Volunteer Auxiliary which secured naming rights to the new room. The auxiliary will be formally recognized later this year with a special ceremony honoring their generous donation.

We would like to thank all our sponsors and donors for your dedicated support through the years. Your generosity is making a lasting impact in our community.
