

VIDANT NORTH HOSPITAL

VIDANT NORTH HOSPITAL
Development Council

Throughout the COVID pandemic, our hospital worked together as a team to face many challenges and hurdles. As our community's main healthcare supporter, it was important for us to do whatever needed to show up for our patients which included working countless, strenuous hours. Our leaders are very proud of our team and appreciate the many ways we adjusted so that the quality of our care would not be compromised.

Though it was a challenging year, it was also a year of new beginnings. On April 1, 2021, Halifax Regional Hospital Foundation transitioned to Vidant North Hospital Development Council, under the umbrella of the Vidant Health Foundation. We now have access to valuable resources such as financial support, marketing tools and assistance, and grant writing just to name a few. We are a part of such a caring community, and we are thrilled to be the link that allows quality healthcare to be available to all in the Roanoke Valley. Our development council stewards all money raised by our team members, donors, and community and makes certain that funds are used to directly support our hospital for such things as technology, equipment, programs, and education.

Vidant North Hospital Foundation is looking forward to the next year with excitement!
